BRILLIANT AND DURABLE WHITEWASH .--Take clean lumps of well burnt lime, slacker. cd. Add to ten gallons, one quarter pound of whiting, or burnt alum, pulverized; one pound of loat sugar; three quarts of rice flour made into a thin and well beiled paste; add one pound of cleanest glue, dissolved as cabinetmakers do. This may be put on cold within doors, but hot outside. This will be as brilliant as plaster of paris, and retain its brilliancy for many years. This is said to be better than paint for fences.

As this is the season for white-washing, we give the above capital receipt.

DENTAL INVENTION .- We have a new invention whose home is with the setting sun in San Francisco. It is called the "Pneumatic Burring Engine," and we venture to say that not one in a thousand would guess from the somewhat tremendous name thereof that the engine was a minute affair for dental work, cleaning teeth and cutting away decayed parts without pain. It does the work with neatness and despatch, and is capable of performing near ly all of the various operations usually inflicted upon the teeth of unhappy humanity with hard instruments.
